

DACFP | Digital Assets Council
of Financial Professionals

The Leading Provider of Crypto Education

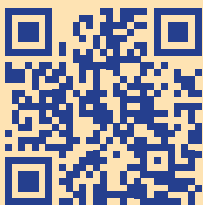

Certified in Blockchain and Digital Assets Designation

The first and largest program of its kind. Listed in the FINRA database of professional designations, the course is online, self-study, features a world-class faculty and as many as 18 CFP/IWI/CFA CE credits. Learn at your own pace.

You'll learn everything you need to know about blockchain and digital assets – what they are, how they work and how you can engage. The Financial Professional track provides unique content specifically for you, so you get the education you need!

Financial Professional Track

If you're in the financial services industry, this track is for you. This online course will help you develop new competencies to gain a competitive advantage in your industry, giving you the knowledge and skills you need to build your career. Earning your CBDA designation through this program will further enhance your credentials, enabling you to contribute to your firm's efforts in creating and implementing its crypto strategy. There is a 10-question quiz at the end of each module. You will need to score 70% or higher to move onto the next module. There isn't a cumulative exam at the end.

ENROLL NOW! DACFP.com/certificate

*You can use the CBDA Designation for one year following completion of the course. There is an annual renewal fee for continued access to DACFP content and the right to use the CBDA Designation.
